ALSUB15
Passive subwoofer

Main features:

- 15”-chassis
- Strong SPL
- Heavy-duty wooden enclosure
- Black structured coated

ALSUB15
Passive subwoofer

System-overview:

The passive ALSUB series is developed as supplement for the ALSUBA Dante Subwoofers in the same enclosure design.

The ALSUB 15 is an extremely compact passive subwoofer in bass-reflex design. The solid enclosure with low resonances and sturdy structured lacquer coating is the ideal bass extension for installations and live-sound.

AIMLINE ALSUB speaker are completely built in Germany.
